

FOR GRAND VALLEY POWER BOARD

### Real Choice

Member should be able to choose time-of-use billing or flat rates.

### Member Participation

Goal: 25% voter turnout in elections. Currently it much lower than 25%

### Fair Power Pricing for All

Members with daytime jobs are overpaying during peak hours.

### Cost Saving to Members

Saving from power wholesaler change should go to members.

### Locally Generated Power

The western slope need local generation.

### Data Driven Solutions

Today there is more data than ever before. It needs to be used to make better decisions.

*for your  
GVP Board*

I hold a PhD in mathematics and have taught 25 years at universities across the U.S. and Canada, including CMU.

In 2014, I returned to Mesa County—a place my family and I loved for its community and outdoor lifestyle. In 2019, I began working as Data Analyst and Senior Researcher at MCPH.

I have been married over 40 years and we have two married adult sons and three grand children, ages 1, 4, and 5.

**I'd be honored to earn your  
vote. Thank You!**

**More Information at  
<https://Gary.forGVP.com>**
